USB 3.0 SuperSpeed Device Cable

USB 3.0 A plug to USB 3.0 micro B plug

Product Description

Connect your Digital Camera, Camcorder, Smartphone, External Hard Drive or other USB 3.0 peripheral to your Desktop or Laptop PC. Superior cable design for a wide range of computer equipment, delivering SuperSpeed data transfer rates and performance.

Features & Benefits

- Connects any USB 3.0 device with a micro USB 3.0 micro B socket to a Desktop/Laptop PC or USB Hub with USB 3.0 A socket
- Carries data and/or power between devices (dependent on devices connected)
- 24K gold-plated contacts ensure a superior, more durable connection compared to regular nickel-plated contacts
- SuperSpeed data transfer rate - up to 5Gbps - ten times faster than previous USB 2.0 standard
- Ideal for use with multimedia applications such as video and music transfer and manipulation requiring very high data speeds
- Oxygen Free Copper (OFC) conductors minimises signal loss and distortions that can reduce data speeds
- Shielded cable minimises interference from external radio (RFI) and electromagnetic (EMI) sources
- PVC outer jacket protects internal conductors from wear-and-tear with integral strain relief jackets
- Colour-coded connectors for easy identification of connected peripherals
